

## Cisco WebEx – How to Record Meeting Computer/Other Location

Steps on how to save recording to your computer/other location.

1. Select “**Meeting**”
2. Select “**Recorder Settings**”
3. Select “**Record on My Computer**”

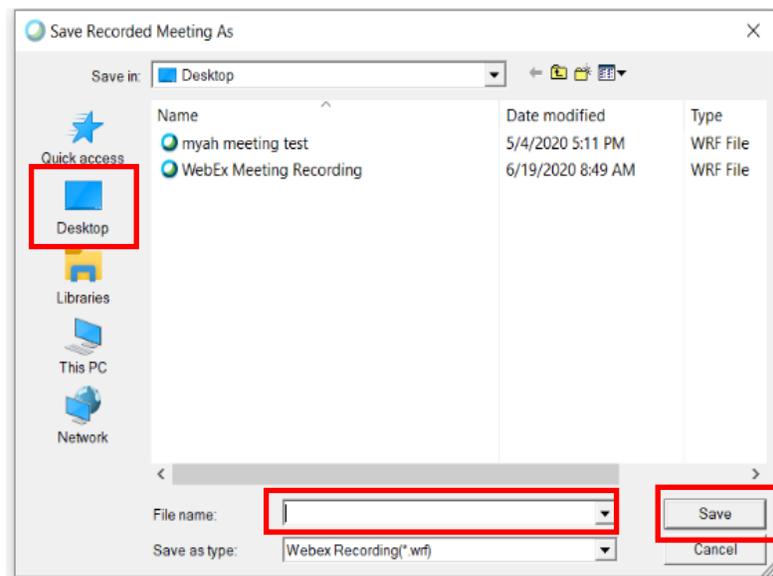

Click “**Record**”.

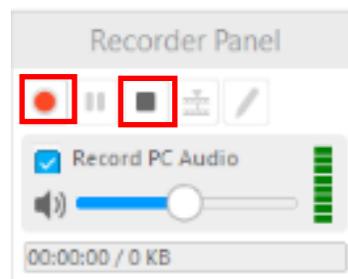

Screen to the right should appear.

Select which location you want to save your recording (eg **Desktop**)  
Give your recording a meaningful name and  
Select “**Save**”

Select “**Red Dot**” to begin your recording

Select “**Black Dot**” to end your recording.

Your recording icon should look like the one to the right.
