## SAN SALVADOR \& RUM CAY

## PREFACE

The Department of Statistics is pleased to release the results of the 2010 Census of Population and Housing. The 2010 Census is the 19th decennial census to be conducted in The Bahamas. This publication is the first in a series of publications that will present the final results of the 2010 Census of Population and Housing.

The planning and execution of The 2010 Census were carried out mainly by the staff of the Department of Statistics. For this and previous censuses, The Bahamas participated in a joint census program for the English-Speaking Caribbean Countries. As a result, the planning followed guidelines that were established by the Regional Census Coordinating Committee (RCCC). Therefore, the concepts and definitions used in this and previous censuses allow for comparability at both the regional and international levels as well as with earlier censuses.

We have in this report made an attempt to present a snapshot of the social and demographic situation of The Bahamas, taking into consideration the data needs of both the policy makers and the general population. In the very near future, more detailed census data will be made available through various forms of data dissemination tools along with special topic monographs.

For the 2010 Census, four different questionnaires were used to collect information for both the individual and the dwelling unit:-

1. Individual Questionnaire which was completed for every person residing in The Bahamas at the time of the census.
2. Institutional Questionnaire which was used to collect data on persons residing in collective dwellings or institutions.
3. Housing Questionnaire which was completed for private and collective dwellings.
4. Vacant Questionnaire which was used to collect information on private dwellings that was vacant at the time of the census.

Data derived from the individual questionnaire relating to the age, sex, marital status, union status, religion, racial group, citizenship, and educational characteristics of the population are presented in this release. Data relating to private dwellings, household, head of households and type of dwelling structure are also presented in this report.

We extend our sincere appreciation to the following organizations which assisted with sensitizing the public to the Census: - The Bahamas Information Service (BIS), The Counsellors Ltd., The Nassau Guardian, The Tribune, The Bahama Journal, The Punch, The Freeport News, ZNS Radio and TV, 100 Jamz, More FM, Love 97, Cool 96, Island FM, Star, ZNS television, Cable T.V. and Quality Business Centre (QBC).

We also appreciate the efforts made by Government Printers and Swaby Printers in the design and printing of the Census posters. Likewise, special acknowledgement is made of the Alpha Kappa Alpha Sorority and in particular Asheka Culmer who also designed and produced leaflets and posters. Some of these items were printed in Creole and for that we thank Daniel Wolmy for the translation.

We express our gratitude to Ben Jarnutowski and the staff of Clearview Printing for their professionalism in the production of the questionnaires and ensuring their timely delivery.

We are indebted to BTC, specifically Marlon Johnson, for the donation of phone cards which enabled field workers throughout the country to communicate with their supervisors and the head office.

Special mention and thanks must be given to the managers of The Town Center Mall, the Mall at Marathon, City Markets Food Store, Super Value and other such stores throughout the country for allowing census posters to be displayed on their premises. We also wish to thank The Bahamas Christian Council and various religious denominations which promoted the Census within their services.

We commend our Family Island Administrators and District Superintendents for their untiring efforts and assistance to the census exercise. We wish to also commend the Area Managers and Supervisors for their generous support and commitment to getting the job done. (See Appendices for the names of area managers and supervisors).

We especially want to thank the twelve hundred (1200) enumerators and interpreters for completing the most difficult aspect of the census, the field work.

A sincere thank you to the Ministry of Education, Youth and Sports, The Bahamas Red Cross and East Street Gospel Chapel for the use of their schools, premises and facilities as training centers and field offices during the census exercise. Likewise, we take this opportunity to thank all heads of government agencies who released their staff to attend the training sessions.

To former Attorney General Claire Hepburn and Mr. Don Cornish, Administrator, Grand Bahama, who presided over the swearing in of enumerators, Rev. Patrick Paul, the then President of The Bahamas Christian Council, Superintendent Wayne Miller of the Royal Bahamas Police Force and the then Minister of State for Finance, Zhivargo Laing and Minister Kenneth Russell, who graciously addressed the fieldworkers, and all others who took part in the Swearing In Ceremony, many thanks.

Gratefully, we acknowledge the assistance of Mrs. Insa Frith, Yvette Thompson and the GIS team in the GIS Unit for providing digital maps for the census field work.

Special acknowledgements and thanks must be given to Ms. Lynn Williams and her team in the Data Processing Section, including Melissha Ellis, who successfully and expeditiously managed all aspects of the data processing of the census. We also, take this opportunity to express our gratitude and appreciation to our Deputy Director Mrs. Leona Wilson for assisting the data processing team in expediting this process. Likewise, we express thanks to our Accounting team headed by Deborah Bridgewater who relentlessly worked at ensuring that all our financial needs and payments were expedited in a timely manner.

At the international and regional level, special thanks to Mr. John Mensah, Chairman of the Regional Census Coordinating Committee, Dr. Philomen Harrison and the CARICOM team for their overwhelming support in preparation for the 2010 Census Round. Additionally, special thanks is extended to the International organizations such as United Nations Population Fund (UNFPA), International Development Bank (IDB), the Ninth European Development Fund and United Nations Statistics Division (UNSD) for their assistance in funding several census-related workshops. We especially thank Paul Cheung, Director, United Nations Statistics Division and his assistant, Yacob Zewoldi for spending three days in the country promoting the Census by appearing on television and radio programmes, making presentations at Civic clubs and schools. Likewise, we convey our deepest
gratitude to Philemon Harrison and several of the Directors of Statistical Offices in the Caribbean for accompanying Mr. Cheung and Zewoldi and contributing greatly to the promotional exercise.

These directors were Sonia Jackson (Jamaica), Iwan Sno (Suriname), Edwin St. Catherine (St. Lucia) and Dave Clement (Trinidad).

To the Bahamian Public, without whose assistance and co-operation, the taking of the census could not have succeeded and all others who have participated in or contributed to the Census program, we extend our sincere thanks and gratitude.

Finally, our sincere gratitude and appreciation to the many staff members of the Department of Statistics who participated in the Census exercise; special mention must be given to the staff of the Census Office and in particular the staff of Census Stores headed by Mrs. Lillian Newbold who had the awesome task of documenting and controlling the flow of the census questionnaires, and others who participated in the field work, coding and editing.

## SAN SALVADOR \& RUM CAY

San Salvador was named Guanahani by the original native inhabitants - The Lucayan Indians. On his arrival in 1492 Columbus renamed the island San Salvador which means "Holy Savior". Built in 1887 the Dixon Hill Lighthouse is the last kerosene lit hand operated lighthouse in The Bahamas. Standing 163 feet above sea level, it maintains four-hour watches nightly, giving a double flash every 10 seconds. The lighthouse has a visibility of 19 miles and is operated by 400,000 kerosene oil lit candles. Rum Cay located 28 miles southwest of San Salvador in common with other islands of The Bahamas experienced a series of booms and busts over the years. Today Tourism is the main source of employment.

## APPENDIX II

2010 CENSUS OF POPULATION AND HOUSING

CONCEPTS AND DEFINITIONS

## APPENDIX II

## 2010 CENSUS OF POPULATION AND HOUSING <br> CONCEPTS AND DEFINITIONS

## Concepts and Definitions

The concepts and definitions on which the Census questions were based were in compliance with the guidelines established by the Regional Census Coordinating Committee (CRCC). This was to allow for comparability at both the regional and international levels as well as with earlier census results.

## 1. Census Day

Census Day was Monday, May 3, 2010. This was the reference day and therefore, all questions on the questionnaire (excluding the economic activity and fertility) referred to the circumstances existing on this particular day. Field enumeration began on Tuesday, May 4th.

## 2. Record of Visits

This is the record of the list of households and the composition of these households which was kept by the enumerator. It also serves as a register of all households, business places and institutions in The Bahamas. This register is used as a frame for the designing of Household and Business Surveys carried out in the intercensal years.

## 3. Population

## The Total Population consisted of the following:

(i) Persons in their usual place of residence on Census Day eg. family members, lodgers and live-in employees
(ii) Persons who were temporarily away on a business trip, on vacation or away at school or university
(iii) Persons in hospitals or other institutions
(iv) Newborn babies in hospital (born by Census Day - May $3{ }^{\text {rd }}$ )
(v) Persons with no fixed place of abode
(vi) Bahamians serving in the diplomatic corps who were resident abroad
(vii) Spouses who worked on another island but come home periodically.

## 4. Supervisory District

A geographical area (synonymous with the 2010 political boundaries) for which data were collected. These geographical areas consist of smaller areas called enumeration districts.

## 5. Household

The term 'household' refers to a person or group of persons who live in a private dwelling unit. The concept of "household" is based on the arrangements made by persons individually or in groups for providing themselves with food and other essentials for living. Anyone of the following may constitute a household.
(i) a person living alone
(ii) one or more family(ies) with or without lodgers or servants
(iii) a group of unrelated persons living together
(iv) occupants of an institution, hotel, convent, etc.

## 6. Head or Reference Person of Household

This is the person who was acknowledged by the interviewee and other members of the household to be the head of the household.

## 7. Family

For Census purposes, the following constitutes "Families":

## ALL MEMBERS RELATED:

- Married couple, with or without child/ children (The children may be of one or both parents as long as these children are not married, nor separated, nor living with a partner, nor do they have any children living in the same household).
- Unmarried couple (common law union), with or without children
- . Mother with child/ children
- Father with child/ children
- Adult child/ children with live-in parent(s) only; (adult child is not married, not separated nor living with a partner. However, he/she can be divorced.)
- Adult child/ children with live-in parent(s) with other related persons under 18 yrs old (These related persons under 18 years old will be considered as dependents of child/children).
- Other adult relatives living with a child/ children under 18 yrs old. (i.e. grandparents with guardianship of minors; Aunt/ Uncle with a niece/ nephew under 18 yrs; Adult siblings with guardianship of younger siblings under 18 yrs , etc)
- . Other relatives living together, none of whom constitute a family nucleus (all 18 yrs and older) siblings only.

## NOT ALL MEMBERS RELATED:

- Adult child with live-in parent(s) with other persons under 18 yrs old; (some or none are related to the nucleus, i.e. the family reference person or the live-in parent)
- Adult living with other persons under 18 yrs old; (all or some are non relatives).

## 8. Marital Status

"Marital Status" is the personal legal status of each individual in relation to the marriage laws or customs of The Bahamas. The marital status options were as follows:-

Never married: a person who is single and has never been legally married.
Married: a person whose marriage has gone through a legal marriage ceremony in accordance with the law.

Widowed: the individual was legally married but his/her spouse has died.

Divorced: the individual was legally married but has gone through legal proceedings for the marriage to be officially dissolved.

Legally separated: applies to a married couple living apart as a result of the decision of the court or legal system of the country.

## 9. Union Status

Union Status is the type of relationship that a man or woman was currently engaged in at the time of the census. The information obtained provides for further study on family formations, that is, how families are formed, the type of relationships children are born into and how children are being cared for in the home. The options were as follows:

Not in a union: the individual is not living with a partner, nor has he/she ever been legally married.
Legally Married: refers to a union in which an individual is currently living with the spouse to whom he/she is legally married to. Exceptions:
(i) spouses who are temporarily apart for work purposes or other unavoidable circumstances
(ii) Migrants who are residing in The Bahamas but their spouse lives in another island/country.

Common-law Union: the partners share a common household even though the union has not been established by a legal process. This union/ relationship has nothing to do with the individual's marital status.

Visiting Partner: refers to both males and females 15 years and older who have fathered or had child/ren in the last 12 months prior to Census Day. During the 12 month period that the child/ren were conceived, the parent was not currently living with a spouse or partner.

Married but not in a union: this person has been legally married but is currently living without a spouse/partner.

Legally separated and not in a union: this type of relationship/union refers to a person who has been married but is legally separated and is currently living without a partner.

Widowed and not in a union: this person has been legally married but due to the death of the spouse, they are widowed and is currently living without a partner.

Divorced and not in a union: this person was legally married but is currently legally divorced and is presently living without a partner.

## 10. Total Household Income

This is the aggregate income of all members of the household from all sources, which was earned, gained or obtained during the past 12 months. This includes income from wages and salaries, as well as income from property or other investments, private educational scholarships, pensions, welfare, alimony, child support, etc.

## 11. Building Unit

A building is any independent, free-standing structure comprising of one or more rooms or other spaces, covered by a roof and usually enclosed within external walls which extend from the foundation to the roof.

A building may be used or intended for residential, commercial or industrial purposes or for the provision of services. It may therefore be a factory, shop, detached dwelling, apartment building, shopping centre, church, repair shop, etc.

## 12. Dwelling Unit

To be classified as a dwelling, living quarters must be structurally separate and must have a private entrance either from the outside or from a common hall, lobby or stairway inside the building. The entrance must be one that can be used without passing through anyone else's living quarters.

## Examples of dwellings are:-

## (1) Single Detached/ Single house

(2) Single Attached (Dwelling units only)
(a) each half of a duplex, triplex, etc
(b) a large building that has been structurally sub-divided to contain more than one housing unit. Eg. A large house which has been converted into several units.
(3) Part of a Private Dwelling: a self-contained private dwelling which has been partitioned off from other spaces in a single house.
(4) Apartment/Flat (dwelling units only): this type is usually found one on top of the other, that is, the floor of one is the roof of the other.
(5) Townhouse: this is a self-contained unit (usually in blocks of units) with separate legal title to ownership. They may stand alone or attached (joined to another townhouse).
(6) Dwelling attached to a Business: a dwelling or dwellings adjoining a store or other commercial unit.
(7) Other: Any type of living quarters which does not easily fit into any of the groups outlined above. For example, boat, bus, trailer, etc.

## 13. Types of Living Quarters

For Census purposes, dwellings were divided into two (2) main groups as follows:
(i) PRIVATE DWELLINGS are those in which a family or other small group of individuals reside, such as a single house, apartment/flat, or townhouse.
(ii) COLLECTIVE DWELLINGS included such special types of dwellings as hotels, institutions (eg. hospitals, the prison, military barracks, convents, children and old folks' homes, etc) and other group quarters in which fairly large numbers of unrelated persons are likely to reside.

## 14. The Status of Dwellings

Dwellings can be categorized as follows:

1. OCCUPIED -- during the period of the census, persons were currently living in the dwelling unit.
2. VACANT -- any dwelling unit which is suitable for occupancy
but was unoccupied at the time of the census.

## 15. Status of Vacant Dwellings:-

1. Winter Residences: private dwellings that are owned by persons from abroad.
2. Secondary Residences (Domestic): private dwellings that are owned by Bahamians.
3. For Rent: private dwellings which are "For Rent".
4. For Sale: private dwellings which are "For Sale".
5. Other: included seasonal vacancies such as vacation or holiday homes, time-share units and seasonal workers' quarters/complexes (dwellings used to house temporary residents/workers of a project).

## 16. Types of Tenure

Tenure refers to the right or title by which a dwelling is occupied. The types of tenure are as follows:-

Owned fully: means that the dwelling is fully paid for i.e. no mortgage/claim exists for the dwelling.
Owned (mortgage): a dwelling which is not fully paid for such as one which has a mortgage or some other claim to it.

Rent: the dwelling does not belong to any member of the household and payments are made monthly for occupancy of the dwelling unit.

Rent Free: no member of the household pays rent for occupancy of the dwelling. The dwelling is provided free of charges, whether or not in return for services rendered e.g. parsonage or government housing.

Lease: a contract in which a dwelling is being used or occupied; an option of buying may or may not exist. Usually, the total sum and time period are stipulated in the contract.

Other: any other type of tenure not listed above. An example "squatting" wherein households were found occupying a dwelling unit without permission of the owner and without any rights to the dwelling.

## 17. Shelter Cost

The cost of occupying a dwelling unit is regarded as the shelter cost. In the case of units owned (mortgage), it is the monthly mortgage payments; in the case of rented units, it is the monthly rent and lease, it is the yearly leased payments, etc.

## 18. Water Supply

## Piped Water

"Piped water" is water which is piped into the dwelling or yard and can be controlled by a tap.

Public Piped: water that is piped through public mains or is obtained from any other public source (eg. well, tank, etc) outside the private lot on which the dwelling is situated.

Private Piped: water that is piped from a private well, spring or other private source located on the property on which the dwelling is situated.

## Not Piped Water

Water is not piped into the yard or dwelling unit.

Public Not Piped: can either be a public well or tank at a central location in the community that is accessible to everyone or a public standpipe or hand pump on the side of the road.

Private not Piped: this water source is usually a well that is owned by the householder and is situated on the private property.

## 19. Economically Active Population

The economically active population is that segment of the population, fifteen years of age and over, engaged in or willing and able to be engaged in the production of goods and services. It is composed of those persons with jobs - the employed, and those persons without jobs but who were engaged in some job-seeking activity four weeks prior to the census. Included in this population were:-
(i) Persons who had jobs and were at work during the reference week.
(ii) Persons who had jobs but were absent from work during the reference week because of illness, vacation, labor disputes, weather conditions, etc.
(iii) Persons who at the time of the enumeration had never worked before and were actively seeking work during the reference week.
(iv) Persons who had previously worked, however, at the time of the enumeration, were not working but were actively seeking work during the reference week.

Groups (i) and (ii) constitute the employed labor force and groups (iii) and (iv) represent the unemployed labor force.

## 20. Non - Economically Active Population

The non-economically active population is that portion of the population fifteen years of age and over who were not engaged in the production of goods and services during the census reference week; nor were they seeking to be engaged during the four weeks prior to census reference week. This population included the following groups of persons:-
(i) Homemakers - persons who during the reference week were engaged in general housekeeping duties (within their own homes) for which they did not receive pay.
(ii) Students - persons who were attending an educational institution on a full time basis during the reference week.
(iii) Retirees - persons who had terminated their employment and were not seeking work during the reference week.
(iv) Disabled - persons who were incapacitated in some form and therefore were unable to work or seek work during the reference week.
(v) Other - persons receiving public aid or private support and others not falling into any of the above categories.

## 21. Type of Industry

This refers to the type of work in which the individual was primarily engaged during the 12 months preceding census.

## 22. Type of Occupation

This is the type of work which was performed by the individual during the 12 months prior to the census and refers to his main job.
